

RESEARCH ON BIZTALK SERVER TECHNOLOGY AND ITS APPLICATION IN ENTERPRISE BUSINESS PROCESSES

nan

Abstract: The need for information exchange within and between enterprises has always been an urgent requirement, posing pressing challenges. This demand has been, is, and will continue to increase, as it relates to the survival, growth, and competitiveness of a business. Currently, given the market situation and the rapidly growing demand for information technology application in enterprises, technology is considered a particularly important factor determining the success of each business.

Keywords: BIZTALK SERVER TECHNOLOGY, APPLICATIONS, ENTERPRISE BUSINESS PROCESSES
