

RESEARCH AND DEVELOPMENT OF BGP BORDER GATEWAY PROTOCOL PROGRAM

nan

Abstract: We are living in the 21st century, the era of science, technology, and modern engineering. At this time, the Information Technology industry and the computer play an indispensable role in all areas of human activity. A standalone desktop computer is not enough; people want to connect computers together into a computer network to leverage processing power, exchange information, and share resources.

Keywords: BUILDING THE BORDER GATEWAY PROTOCOL (BGP) ROUTING PROGRAM
