

EXPLORING DATA CLUSTERING AND IMPLEMENTING THE CLARANS ALGORITHM FOR CLUSTERING APPLICATIONS

nan

Abstract: In recent years, the strong development of IT has caused the information collection and storage capabilities of information systems to increase rapidly. Besides, the massive and rapid computerization of production, business, and many other fields of activity has created a huge amount of stored data for us. Millions of databases have been used in production, business, management activities, among which many are extremely large databases of Gigabyte or even Terabyte size.

Keywords: ON DATA CLUSTERING, IMPLEMENTATION OF THE CLARANS ALGORITHM, APPLICATION TO CLUSTERING, CLARANS
