

BUILDING A NETWORK MANAGEMENT AND TELECOMMUNICATION SERVICES PROGRAM FOR THE CENTER

Bui Thi Thuy

Abstract: Today, in the world as well as in Vietnam, with the rapid development of information technology and its applications in fields such as science, economics, engineering, and military, it has brought enormous benefits. In the field of management as well, with the contribution of computers, this work becomes more efficient by saving time, and tasks are carried out more rigorously. To achieve that, management software is required.

Keywords: NETWORK MANAGEMENT PROGRAM, TELECOMMUNICATIONS SERVICES, CENTER
