

BUILDING AN ELECTRONICS RETAIL WEBSITE FOLLOWING PICO SUPERMARKET PROCEDURES

nan

Abstract: In recent years, with the outstanding development of science and technology, especially information technology, using Pico as a foundation to develop the topic along with suggestions from Ms. Nong Thi Hoa, I have implemented the project: "Building an electrical appliance sales website following the process of Pico supermarket." Website design analysis. The program runs on operating system environments such as WinXP, WinServer, Linux, using standard data processing languages like PHP, HTML, JavaScript, XML, CSS, and the MySQL database management system.

Keywords: ELECTRONIC PRODUCT SALES WEBSITE FOLLOWING PICO SUPERMARKET PROCEDURES, WEBSITE
