

BUILDING A NETWORK MANAGEMENT APPLICATION BASED ON SNMP PROTOCOL

nan

Abstract: Today, with the strong development of the information technology industry, especially the Internet network, their presence has created important revolutionary turning points, fundamentally changing every aspect of human social life. The development of the Internet has led to the development of network devices such as routers, switches, servers, etc. Managing such a large number of devices is extremely difficult and laborious, so the SNMP protocol was developed to solve this problem.

Keywords: COMPUTER NETWORK MANAGEMENT APPLICATION BASED ON SNMP PROTOCOL
