

BUILDING AN ENGLISH-VIETNAMESE DICTIONARY APPLICATION ON MOBILE PHONES

nan

Abstract: Information technology today plays a very important role in our daily lives. The application of information technology in various fields of life helps work be carried out more quickly and efficiently. Many new technologies have developed alongside the advancement of information technology, such as Bluetooth, ADSL, Wireless, Mobile, WAP... aiming to make information technology increasingly user-friendly. One of the technologies that significantly contributes to bringing information technology to users and plays a major role in our daily work is mobile technology.

Keywords: ENGLISH-VIETNAMESE DICTIONARY APPLICATION ON MOBILE PHONES
