

BUILDING A VIDEO CALL APPLICATION SUPPORTING ONLINE CONFERENCES

nan

Abstract: In today's era, information technology plays a crucial role in almost all fields such as economy, industry, healthcare, education... Especially with the emergence of the internet, it has changed the way people communicate, share, and exchange information. Among these, online seminars or video conferencing have emerged as one of the most effective communication methods. The advent of online seminars has partly changed the way people communicate by enabling them to connect via both images and sound, even when they are half a world apart.
