

APPLYING SPSS TO FORECAST THE STATUS OF VIETTEL MOBILE NETWORK IN HANOI

nan

Abstract: Statistics are an indispensable tool in research activities and practical work. Statistics are used from natural sciences to social sciences, medicine and pharmacy, business, and many other fields. When mentioning statistics, many people often think of numbers, data arranged in tables, or graphs representing socio-economic data such as population, employment, unemployment, gold prices, rice export volumes, ...

Keywords: SPSS FOR FORECASTING VIETTEL MOBILE NETWORK STATUS IN HANOI, SPSS, VIETTEL
