

Research on building Vietnamese legal knowledge graph

Nguyen Ke Luong

Abstract: This topic aims to research and build a Legal Knowledge Graph for Vietnam, meeting the requirements of state administrative management in the legal field. By combining theoretical research methods with practical application deployment, the topic hopes to provide a useful tool to support the organization and access of legal information. It is expected that the results of this research will contribute to the sustainable development of Vietnam's legal system.

Keywords: Legal knowledge graph, State administrative management, Management support tools, Legal knowledge, Vietnamese legal system
