

Improving the effectiveness of internal communication for TMDS International Manpower Supply Joint Stock Company

Đinh Thị Bích Hòa

Abstract: In the context of increasingly fierce competition, improving internal communication efficiency at TMDS International Manpower Supply Joint Stock Company has become an urgent issue. This study aims to build an internal communication management system based on modern principles, thereby solving the supply-demand information problem within the organization. Based on theoretical and empirical research approaches, the study will analyze the current situation, identify requirements, and implement specific solutions to enhance internal communication efficiency. Through this, the study expects to achieve results that can be directly applied to business operations, thereby contributing to elevating the company's position in the market.
