

Building a website to promote the culture and tourism of Cao Bang province.

Dam Van Giang

Abstract: In the context of socio-economic development and the trend of smart tourism, building a website to promote the culture and tourism of Cao Bang province aims to provide diverse information about the province's cultural heritage and tourism potential. This topic uses theoretical research combined with experimentation to develop a user-friendly interface and engaging content. The ultimate goal is to enhance community awareness and promote local socio-economic development through effective cultural and tourism promotion.
