

Design MUNTECH Theme for e-commerce website using WordPress and WooCommerce

Bui Van Tien

Abstract: This topic focuses on designing the MUNTECH Theme interface for e-commerce websites, aiming to meet the modernization needs and enhance user experience for businesses in the e-commerce sector. Through theoretical research on web design and practical implementation on the WordPress and WooCommerce platforms, the goal is to build an effective, user-friendly theme with high customizability to meet the diverse needs of online businesses. The expected results of this topic will bring practical value in optimizing web interfaces and improving sales performance.

Keywords: MUNTECH theme, WordPress, WooCommerce, website design, e-commerce
