

# **Building a set of criteria for evaluating statistical office staff at the People's Committee of Bac Son Commune, Hung Ha District - Thai Binh Province**

**Le Thi Thuy**

**Abstract:** This topic aims to research and develop a set of criteria for evaluating the work performance of statistical office staff at the People's Committee of Bac Son Commune, Hung Ha District, Thai Binh Province. Thereby, it helps improve management quality and enhance the operational capacity of the staff in the field of statistics. The research method combines management theory and experimentation to evaluate work efficiency. The expected results provide a basis for management policies and training of statistical staff, contributing to the sustainable development of the local statistical system.

**Keywords:** Statistics, evaluation of cadres, office management, Commune People's Committee, Thai Binh
