

Application of Microsoft Excel in managing poor households at the People's Committee of Lien Hiep Commune - Bac Quang District - Ha Giang Province

Mong Van Tuyen

Abstract: This topic aims to study the application of Microsoft Excel software in managing and monitoring the situation of poor households at the People's Committee of Lien Hiep Commune, Bac Quang District, Ha Giang Province. The main objective is to build an effective management system to support sustainable poverty reduction efforts. The method combines theoretical research with experimentation through the implementation of Excel applications in daily work processes. The expected result is that the topic will provide a practical solution to improve the productivity and accuracy of poor household management, contributing to the goal of sustainable poverty reduction in the locality.

Keywords: Microsoft Excel, poor household management, information technology, poverty reduction, Bac Quang district
