

Application of HRM software to improve the efficiency of personnel record management at HADANBI VINA Co., Ltd., Thai Nguyen province

Luu Thi Kieu Trinh

Abstract: This topic aims to analyze the current state of personnel record management at HADANBI VINA Co., Ltd. and identify limiting factors. Thereby, it proposes solutions for applying HRM software to improve management efficiency. The research method combines social methodology with experimental system implementation. The expected result is a significant improvement in the quality of personnel records and information accessibility within the company, contributing to the sustainable development of the organization.
