

Improving the efficiency of managing records of poor and near-poor households at the People's Committee of Hop Thinh Commune - Hiep Hoa District - Bac Giang Province

Nguyen Thi Nhung

Abstract: This topic aims to evaluate and propose solutions to improve the efficiency of managing records of poor and near-poor households at the People's Committee of Hop Thinh Commune, Hiep Hoa District, Bac Giang Province. Through a combination of theoretical research and practical experimentation, the main objective is to build an electronic record management system to enhance productivity and service quality provided to poor and near-poor households. The expected results will contribute to strengthening social policy monitoring and improving access for those in need of support, thereby promoting sustainable local development.

Keywords: Management of records, poor households, information technology, electronic management, efficiency improvement
