

Research on the relationship between universities and enterprises in Thai Nguyen in the context of global integration

Ly Thi Anh

Abstract: This topic aims to study the relationship between universities and enterprises in Thai Nguyen, with the goal of better understanding the roles of both parties in the integration process. By applying a combination of theoretical and empirical research methods, the topic seeks to identify key issues that need to be addressed and propose appropriate approaches to improve the relationship. The research results are expected to contribute to enhancing the effectiveness of academic-enterprise cooperation, while providing valuable information for local policymakers.

Keywords: Global integration, University-enterprise relations, Thai Nguyen
