

Building a sales system for Hoang Ha Mobile.

Nguyen The Giang

Abstract: In the context of the increasingly developing mobile phone business, this topic aims to build a sales system that optimizes the purchasing process and inventory management of Hoang Ha Mobile. Through theoretical research combined with experimentation, the topic evaluates the effectiveness of modern technologies in improving the quality of sales services. The expected result is to provide a sustainable solution for Hoang Ha Mobile, aiming to increase competitive advantage and meet the increasingly diverse needs of customers.

Keywords: Sales system, Hoang Ha mobile, Warehouse management technology, Mobile phone business, Optimization solution
