

Build a sales website for HITECH Company.

Nguyen Huu Hai

Abstract: In the context of the rapidly growing online business environment, this topic aims to build an e-commerce web system for HITECH Company. Through theoretical research on website design and practical application deployment, the project will provide solutions to optimize user experience and enhance online sales performance. The expected outcome is to create a flexible digital platform that effectively meets the needs of the market and customers, thereby making a significant contribution to the business development of HITECH Company.
