

Building a sales website for Nheo YT store - Viet Tri - Phu Tho

Nguyen Thi Minh Nga

Abstract: In the context of increasingly advanced digitalization, building a sales website has become a practical requirement for businesses and small retailers. This project aims to research and develop an e-commerce web system for Nheo YT store in Viet Tri - Phu Tho. Through a combination of theoretical methods on website design and practical application deployment, the project seeks to contribute technical solutions that support optimizing the sales process and enhancing market access for local businesses.
