

Research on the EPK i7010 gastrointestinal endoscope

Bế Hoàng Yến

Abstract: This topic focuses on analyzing and evaluating the features of the EPK i7010 gastrointestinal endoscopy device, aiming to determine its operational performance and potential for clinical application. Through a combination of theoretical research and experimentation, the project seeks to provide a system that supports physicians in diagnosing and treating diseases related the gastrointestinal tract. The expected results will contribute significantly to the development of endoscopic techniques and the improvement of healthcare service quality.
