

Solution for managing civil servant records at the People's Committee of Thach An District - Cao Bang

Hoang Thi Dieu

Abstract: In the context of increasing attention to public administration management, this topic focuses on the issue of managing civil servant records at the People's Committee of Thach An District, Cao Bang Province. The objective of the research is to develop an effective management solution to optimize the storage and retrieval of information on civil servants. The method combines theoretical research and experimentation to assess the feasibility of the proposed solution. The significance of the research lies in improving administrative management capacity, contributing to enhancing the efficiency of public service at state agencies.
