

Enhancing the management of office equipment at Hoa Phat Steel One Member Limited Liability Company, Hanoi.

Tran Thanh Huyen

Abstract: In the modern context, improving the efficiency of office equipment management plays a crucial role in optimizing production and business operations. This topic was chosen to address the problem of improving fixed asset management at Hoa Phat Steel One Member Limited Liability Company through the development of an automated management system. The research method is based on a combination of modern management principles and experimentation in a corporate environment, aiming to provide a comprehensive solution to enhance equipment utilization efficiency. The expected result is the optimization of office equipment management processes, thereby contributing to the sustainable development of the company.
