

Assessing the impact of foreign direct investment on the economy of Thai Nguyen province in the period 2005-2017

Luong Ngoc Quynh Minh

Abstract: The research aims to assess the impact of foreign direct investment (FDI) on the economic development of Thai Nguyen province in the period from 2005 to 2017. The article is based on a combination of theoretical and empirical research methods, through data analysis and evaluation of FDI's impact on economic aspects such as GDP growth, job creation, and technology transfer. The objective is to identify the important role of FDI for the local economy and contribute solutions to optimize the benefits from FDI in the future.

Keywords: Foreign direct investment, Thai Nguyen, economic development
