

Building a financial management system for EXP Thai Nguyen company.

Pham Manh Tung

Abstract: In the current context, effective financial management plays a crucial role in the sustainable development of enterprises. This topic focuses on building a specialized financial management system for EXP Thai Nguyen Company to optimize operational processes and enhance financial forecasting capabilities. The research method combines financial management theory with practical software implementation. The system is expected to bring significant efficiency in reducing financial risks and supporting the company's business decisions.

Keywords: financial management, administration software, EXP Thai Nguyen Company
