

Research EXT.NET FRAMEWORK and develop student record management software for Thai Nguyen College of Economics and Technology.

Bui Van Vuong

Abstract: This topic aims to research and evaluate the effectiveness of the EXT.NET FRAMEWORK in developing a student record management system at Thai Nguyen College of Economics and Technology. Through the experimental process, the topic applies a combination of theoretical research and application deployment to identify the superior features of the EXT.NET FRAMEWORK. The expected results will provide a more effective student record management solution, contributing to improving the quality of training and school administration.

Keywords: EXT.NET FRAMEWORK, Student Profile Management, Software Development, Thai Nguyen College of Economics and Technology
