

# **Building a website for information and enrollment promotion for the Department of Networks & Communications, Faculty of Information Technology - Thai Nguyen University of Information and Communication Technology.**

**Duong Minh Dai**

**Abstract:** This topic focuses on building a specialized website to provide detailed information about courses, research, and admission opportunities for the Department of Networks & Communications. Thereby, it aims to enhance the effectiveness of information delivery as well as increase access to potential audiences. The proposed method includes conducting theoretical research on website design combined with the web application development process. The project is expected to bring many benefits in promoting the department's image and attracting potential students to study at Thai Nguyen University of Information and Communication Technology.

**Keywords:** Admissions website, Network & Communication, Information Technology, Website Design, Promotion
