

Designing a Website for MUB-Hai Phong One Member Limited Liability Company

Nguyen Yen Duong

Abstract: In the context of the increasingly developing digital landscape, website design has become a crucial factor for the success of businesses. This thesis aims to meet the need to build a professional website for MUB-Hai Phong One Member Limited Liability Company. Through theoretical and experimental research, the goal is to develop a modern website interface, enhance user experience, and optimize SEO. The applied methods include requirement analysis, UI/UX design, web development based on modern platforms, and system testing. The expected results not only bring economic value to the company but also enhance its competitive position in the local market.

Keywords: Website design, Single-member limited liability company, MUB-Hai Phong, UI/UX, SEO
