

Building an online sales website for Vietnam Space Interior Production and Trading Company Limited in Hanoi.

Nguyen My Kieu

Abstract: In the context of the rapidly growing e-commerce landscape, this topic focuses on building an online sales website system to enhance business efficiency for Không gian Việt Furniture Production and Trading Co., Ltd. in Hanoi. The objective of the research is to design and implement a comprehensive e-commerce solution, including product management features, a secure payment system, and a convenient user experience. The methodology combines theoretical research on e-commerce with practical web application development. The expected outcome is to provide the company with an effective business tool, contributing to strengthening its competitive position in the Hanoi furniture market.

Keywords: online sales website, e-commerce, product management, secure payment, user experience
