

Research and build a payroll accounting program at Green Environment Company Limited - Bac Ninh

Nguyen Thi Thuy Nga

Abstract: The study aims to determine the need for a salary management system at Green Environment Company Limited - Bac Ninh. The objective is to design and implement an effective payroll accounting program, ensuring accuracy and transparency in the payment process. The research method combines accounting theory with experimentation based on the company's actual data. The expected results provide an optimal solution for labor financial management, contributing to improving the operational efficiency of the enterprise.
