

Building a savings deposit management program at the Bank for Agriculture and Rural Development - Dai Tu District Branch - Thai Nguyen Province

Le Thi Huyen

Abstract: In the context of the modern economy, effectively managing capital in the form of savings deposits at the Bank for Agriculture and Rural Development (Napas) has become extremely important. This topic aims to build a specialized savings deposit management system for the Dai Tu district branch - Thai Nguyen province, combining theoretical research and experimentation to optimize transaction processes, enhance capital recovery capabilities, and improve the bank's reliability. Through the implementation process, the project is expected to make a significant contribution to the sustainable development of Napas Dai Tu branch, while creating useful application solutions for the local banking sector.
